

## PRESCHOOL SURVEY

To make plans for to begin a preschool at the current Highland Elementary School for the 2009-2010 school year, we need to know the following information:

- the number of three and four year olds within the new Doniphan West School District boundaries for the 2009-2010 school year; and
- the interest of parents to have their child attend preschool.

If you have a child that will turn three or four on or before August 31, 2009, please answer the following questions and return to the address listed below.

We will provide you with more information about the format and structure of the program later in the spring. A screening for preschool will also be held later in the spring as well.
